

fwi::CommandLineArguments
::canTryDbConnection

main

```
graph LR; main[main] --> fwi[fwi::CommandLineArguments::canTryDbConnection];
```

The diagram illustrates a function call. A box on the right labeled 'main' has a blue arrow pointing to a larger box on the left. The left box contains the text 'fwi::CommandLineArguments' and '::canTryDbConnection' on two lines. The left box has a light gray background and a black border, while the 'main' box is white with a black border.
